TREE DONATION GUIDELINES

Thank you for your interest in dedicating a tree to the City of Columbus. Your donation helps support our city and furthers its enjoyment by our citizens.

We have a variety of trees that we use within our park system, and the type and location will be selected by our Forestry team. The cost of donating a tree is $350. Please email donations@columbus.gov with any questions related to your tree donation.

Trees will be purchased and planted in late fall annually. Any and all donated trees are the property of the Columbus Recreation and Parks Department and will be maintained, relocated, removed, or disposed of according to the City of Columbus' policies and priorities. Again, thank you for supporting your parks!
